PROJECTS

Dissertation Project & 10,000 Word Essay — *simulating Social Situation in Virtual Reality to Treat Social Anxiety Disorders (SADs) through exposure therapy.*

Project to build an android VR app used to simulate social situations (example, taxi ride) to help treat SADs. The 10,000 word essay was written to professional standards. Application was created using Unity3D, Google SDK, Blender, Fusion Studio and written in C++.

Electronics EES Project — *Engineering Extracurricular*

Our team worked with a company with a budget of £2000 to fix an issue they had in the workplace. We worked within a set timescale to complete the project and present it at the EES conference at Rolls Royce in Bristol.
